PHOTOGRAPHY

Megan, Megan Gallagher Photos

Megan's work is everything! The photos she creates are absolutely stunning, and are the kind of art you can hang on your wall forever. Her laid-back attitude really comes in handy in the wedding stress whirlwind! Authentic, loving candid? Yes please! The way she captures color is perfect for those couples who love the classy "moody" edits, but want to feature all the beautiful tones of their wedding day.

Breanna and Kevin, BreannaplusKevin

This super cute dynamic duo is fun to work with, and so kind! Plus, their gorgeous true to color edits always make the flowers pop, which we love. They're experts in catching those little candid moments that you'll treasure while sprinkling in amazing, high art posed photos.

Kastle, Kastle H Photography

Kastle is such a genuine human! I love working with her because her smile and kindness put everyone at ease- so important when wedding day stresses could easily run high. Her photos show that people feel confident and comfortable with her behind the lens. Plus they're gorgeous!

Wiley, Wiley Putnam

Wiley captures gorgeous, timeless images that wow. He effortlessly captures natural-looking poses and emotional candid. Wiley truly adores what he does, and his work really reflects it. He's great!

Breeanna, Eleven Eleven Films

Breeanna does the coolest work! Moody colors, double exposures, stunning perspectives and angles. She can definitely deliver that fine-art photography look... with a healthy dose of sass! Fun fact about Breeanna... she's a kitty foster mom, and the first time we met I spent a solid hour having kittens crawl all over me. It was the best!!

VIDEOGRAPHY

Gavin, Gavin Brown Media

Gavin has filmed for us so many times, and every film takes our breath away. He is so funny, and is able to get the most truthful moments on film in a way that takes so much skill and natural talent. From heartfelt speeches to candid dancing and silly faces, he's able to put them together seamlessly for a stunning, archive worthy film.

HAIR AND MAKEUP ARTISTRY

Lisa, Lisa Boehm Beauty

Lisa is like that cool big sister everyone always wanted to have. She's got a great eye for color combinations, and her styling skills are off the charts. She works magic! We met in college, and I've been so glad to keep creating with her now that we're both adults out in the business owning world! If you want to look like you, but the most confident you you've ever been, book with Lisa.

CALLIGRAPHY AND STATIONARY

Rachel, Everglow Handmade

Rachel is an incredible creator, and has the pure talent that makes her work shine on a different level. Her lines are clean and stunning, and she does incredible design work as well, meaning your whole wedding can have a seamless and cohesive look! She's also just really fun to laugh and talk with.

Brittany, Letters and Dust

Brittany can do literally anything. Watching her work is absolutely mesmerizing! And the pieces she creates are one-of-a-kind. If you want something you can treasure for the rest of your lives together, absolutely check out her work. Also, in case you're not the sentimental type who wants to hold onto their signage, she does rentals too.

RENTALS

Cort Rentals

Cort has an amazing selection, and at a super reasonable price point. They're always surprising us with new inventory, and we will happily work with them to create one-of-a-kind installation pieces for your event!

Archive Rentals

Archive has the best styling pieces, hands down. There's something about their curated collection of bohemian treasures that just really makes us glad. And they're so accomodating!!

CATERING

Camelot Catering Co.

Camelot Catering Co. has been in business for over 35 years, and there's a reason- their food is beyond tasty!! Seriously, go to their website and let the drooling commence. They also offer cakes, if you prefer to go the all-inclusive route!

Grate Boards

Who doesn't go wild for a good charcuterie spread?? We attended a workshop featuring their boards recently, and it was absolutely the snack and chat refreshment that we needed. Perfect for your rehearsal or cocktail hour!

CAKES AND DESSERTS

Natalie, Natalie DeHaven Cakes

Natalie is a gem of a human being, as well as an incredible baker. Her cakes are truly art pieces, and darn tasty to boot! If you're looking for something really unique, ask about her custom sugar work. It's beyond beautiful! She's so creative!

CAKES AND DESSERTS CONT.

Abi, Jason Ave Baking Co.

Abi is a past bride of mine who transitioned into professional baking after everyone kept bugging her about how dang delicious her wedding cookie favors were. I'm so glad they did, because wow!! Tasty talents like hers should be shared with the world. My favorite is her dark chocolate espresso cookie. Totally drool worthy!

Nothing Bundt Cakes

These. Cakes. Are. GOLD! They make bundtinis (teeny bundts! Like cupcakes!) and tiered bundt wedding cakes that bring casual fun and delicious flavor combinations to every event. One time we had a bride buy us a thank you bundt that got delivered with the wedding cake, and no joke we ate it at 2am after our tear down, directly out of the box, while crying about how delicious it was.

GOWNS

Brides for a Cause

We adore Brides for a Cause. Their selection is constantly changing across a wide variety of styles and sizes because they're samples and secondhand donations, and they're a great choice for brides on a budget. But the best part of Brides for a Cause is the cause. In 2018, they donated \$175,000, about 90% of their net income!!

JEWELRY

MiaDonna & Co.

The rings at MiaDonna & Co. are not only spectacular, they're also a purchase you can feel really good about. They're sustainable recycled metals, conflict free lab-grown diamonds and gemstones, and eco-friendly certified by the Green America 'Seal of Approval'. You know that Gilmore Girls scene where Lorelei pants over the art-deco ring from Max? That's us, for all of their rings.

FLORAL PRESERVATION

Ashley, Coyote Brains

Ashley does incredible pressed floral art! The attention to detail and beauty of her work makes your personal florals into truly stunning heirloom art pieces. Whether you're looking for a shadow box, hanging glass portal, fun pendants, or something custom, she's definitely our first pick for creating lasting floral memories.

Teagan, Muted Rose Embroidery

When I first discovered Teagan's work it took my breath away! She lovingly hand embroiders an image of your bouquet, creating the most unique forever flowers I've ever seen. The depth and texture she's able to create with so few materials is incredible.

Soil and Soul Studio

Soil and Soul makes modern floral art out of resin, and is an awesome choice if you're looking for a 3D way to preserve your flowers for life! My personal favorite pieces they create are their ring holders and pendants - they're such sweet (and useful!) ways to remember your big day, every day.

Bloombeads

Bloombeads is such a cool process! They take your wedding flowers and turn them into custom beads that can be transformed into jewelry! I especially love their cuff bracelets. They also do traditional full-bouquet shadow boxes, but that service is limited to the Dayton, Ohio area.

Something to Note:

We are HUGE fans of these artists' work! However, we cannot guarantee their performance or availability for your event. Also, we want to clarify that Blooms and Twine Floral Design doesn't ever get a cut of their bookings. The reason we've selected the talented people on this list is that we genuinely love their work. We've created alongside them to make magic, and have seen firsthand the joy and skill they each have in their field. Happy planning, Bloom Babes!
